EARTH  TECH
GEOTECHNICAL CONSTRUCTION SERVICES

QUALITY • EXPERTISE • LEADERSHIP • REPUTATION

A Firm Foundation

Earth Tech is a company committed to delivering superior solutions and extraordinary customer service to commercial construction and residential clients throughout the Southeast. Since 1991, Earth Tech has earned a reputation as the leader in soil stabilization solutions, services and technologies. Our track record of over 2,000 successfully completed stabilization projects testifies to our extensive experience, technical proficiency and exceptional quality. When it comes to solving soil and foundation related problems, Earth Tech is the company you can depend on.

Headquartered in Land O' Lakes, Florida, Earth Tech is a multi-generational family business founded by father and son Lewis and Ron Broadrick. Our success stems from combining visionary leadership and industry experience with a team of engineering, project management and customer service professionals. Because we maintain a singular focus on one service area - providing soil stabilization solutions - Earth Tech is able to devote its resources and expert team to delivering a customer experience that is unsurpassed within our industry.

Our ongoing investment in the best people and innovative equipment assure you of top performance, on time delivery and exemplary safety practices.

Our formula for success is simple:

Experienced People + Specialized Equipment + Commitment = Superior Results

President

Residential Solutions

Earth Tech is a company made up of families, and like you, many of us are homeowners, too. We understand the financial and emotional investment your home represents. When problems occur that affect the stability and structural integrity of your home's foundation, you need someone you can trust to solve the problem.

Earth Tech is that company, and we have helped restore not only the foundations, but peace of mind to families just like yours throughout Florida.

The sinkhole remediation and foundation repair services we offer homeowners include:

- Grouting
- Underpinning
- Chemical Grouting

Both grouting and underpinning are safe, secure and proven means of solving soil and foundation stabilization problems. Best of all, Earth Tech's experienced team can make these significant repairs with a minimal amount of disruption to your daily routine.

When you call Earth Tech, you can expect:

- A solution that works.
- A plan explained in simple, easy to understand language, so that you fully understand everything we do.
- A Project Manager assigned to oversee the work being done.
- The most experienced and efficient crews in the industry.

Let Earth Tech show you how we can help preserve the structural integrity of your home's foundation, giving you and your family peace of mind.

Commercial Solutions

Earth Tech understands that, in a commercial construction project, time is money. Delays are costly. If your project requires soil improvement, you must trust that the company you call will:

- Develop a solution that works
- Deliver that solution in a timely manner
- Keep disruptions to a minimum
- Offer you true value

Drilling and Grouting

- Compaction Grouting
- Pressure Grouting
- Chemical Grouting
- Jet Grouting

Foundation and Retention Systems

- Ductile Piles
- Soil Nails
- Auger-Cast Piles
- Soil and Rock Anchors
- Mini Piles

Soil Improvement

- Vibro-Compaction
- Stone Columns
- Vibro-Replacement
- Soil Mixing

High Performance Service Culture

Passion

At Earth Tech, our corporate culture emphasizes two ideals:

- High Performance Service
- High Performance Execution

Every member of our company strives to achieve these ideals daily. This is exemplified both in our passion for what we do and our pride in how we do it. We believe we are the very best company in our industry, and our valued customers agree. Whether they are commercial construction companies working on multi-million dollar projects or families looking for help to save their homes, they know that when they call Earth Tech, we respond with the respect, quality and value they deserve.

Community

The owners, management and employees at Earth Tech all believe that a great company should also be a good neighbor, and care about what is important to the community it serves. That is why Earth Tech actively supports local charities such as Big Brothers Big Sisters, Susan G. Komen For The Cure Breast Cancer Foundation and Metropolitan Ministries, both through donations and employee involvement. We also believe that a good neighbor maintains a good reputation in the community. That is why you will find Earth Tech listed in such trusted consumer directories as Angie's List and The Better Business Bureau.

We Provide Soil Stabilization Solutions that Protect Both Projects and Property.

To experience the Earth Tech difference for yourself, call us today or visit our website, where you will find a number of multimedia resources that provide more information about our company and the solutions we deliver.
